Purpose

Beginning with the graduating class of 2018, students enrolled in Tennessee public schools during their eleventh grade year must complete the ACT or SAT prior to graduation (see High School Policy 2.103). The students in Tennessee will have the opportunity to take a college entrance exam in the familiar surroundings of their own school, on a school day, at no cost to them.

Results

Student score reports will be given to parents once tests are scored by ACT. District level scores will be released with the district's accountability data.
